**GAME BIRD SEMINAR**  
Thursday, October 23, 2008

&

**FALL FIELD DAY**  
Friday, October 24, 2008

at

**Tall Timbers Research Station  
& Land Conservancy  
Leon County, Florida**

For our 50th Anniversary, Tall Timbers is hosting a Game Bird Seminar and our annual **Fall Field Day**. Join us for the latest information on quail ecology and management. Bobwhite populations on Tall Timbers have increased 10-fold since we revamped the Game Bird Program and committed significant resources to research and land management. Through our long-term studies we have recorded over 120,000 telemetry locations of bobwhites! At Fall Field Day on Friday, October 24, we will highlight this information to demonstrate how and why bobwhite populations respond to habitat management.

In addition to our regular Fall Field Day activities, we are conducting a **Game Bird Seminar & Social** on the evening prior to the event. The seminar will provide the latest information on key management issues from long-term studies by Tall Timbers and the Albany Quail Project. Come to our Seminar & Social to discuss all things quail and the upcoming 08-09 season in the Red Hills and Albany!

## Game Bird Seminar & Social

Thursday, October 23 • 4:30 - 8:00 PM

4:30-6:30     **Supplemental feeding: how much, when and why.**  
*Shane Wellendorf*

**Eight-year nest predator study ...results are in!**  
*Bill Palmer*

**Translocation on new and established properties...what we know works and why.**  
*Clay Sisson*

**Stoddard Lecture: Genetics and Bobwhites... from quail sex to their genetic health.**  
*Dr. Brant Faircloth, UCLA - Brant conducted the most in-depth study of quail genetics and behavior ever done and he did his work on TTRS!*

6:30-8:00     **Social celebrating 50 years of bobwhite research and management with "Posey's" grouper fingers and shrimp; beer, wine & cocktails.**

## Fall Field Day Program

Friday, October 24 • 7:30 AM – 1:00 PM
